Bibiana Rojas

19.11.2018  10:00 – 11:30
Konferenzraum Zoologie, UZA 1

Bibiana Rojas is an Academy of Finland Research Fellow at the University of Jyväskylä, Finland. Her main interests lie in the interface between behavioural and evolutionary ecology. Her research focuses on different aspects of communication, animal colouration, anti-predator strategies, aggression, parental care, and life history trade-offs. She has been using poison frogs, wood tiger moths, and blue and great tits as study systems.

This seminar is open for all female pre- and post-docs. Number of participants limited. First come, first served!
